Have a great day,
find your way

The Alien Life

"Johnson, how many times do I have to say it, 'It's not the size of the dog in the fight, it's the size of the fight in the dog.' Now, get off my desk."

Hi

Who defined fierce?

Savage, if you are dangerous
Fiery, if you are ignorant
Ferocious, if you push to hurt

Relentless, will not be swayed away
Truculent, will not agree to nonsense
Furious, will not be easily subdued

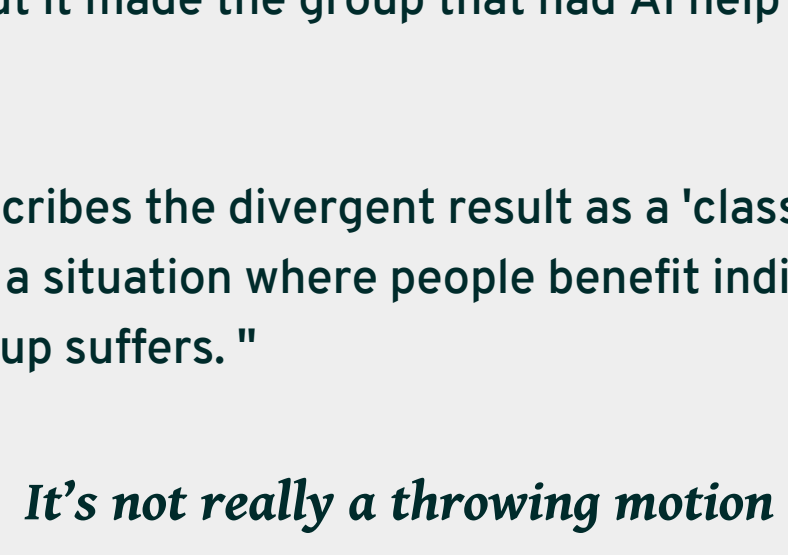

Tempestuous, unkind to manipulation
Dangerous, an enemy of every fool
Passionate, a friend of meaning

Intense, always present now
Proud, alive within the truth
and Wild, magnificent and free

I have seen the birth
and growth of fierce,
by a girl undefined.

A big price to pay

**Research shows AI can boost
creativity for some, but at a cost**

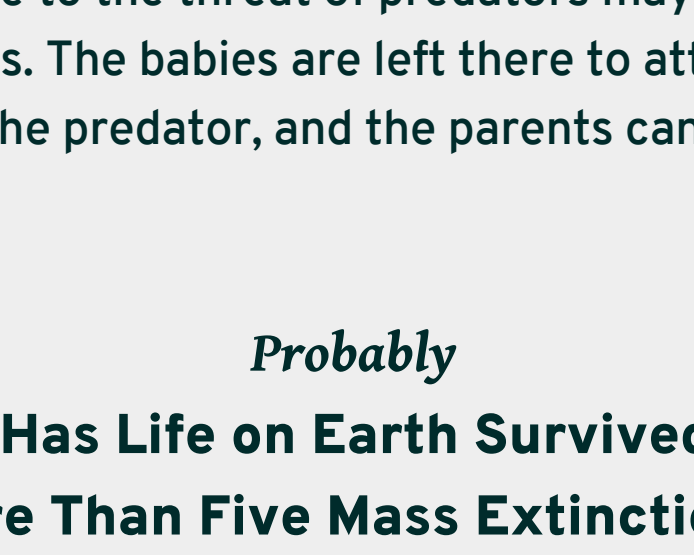

" In other words, the chatbot made each individual more creative, but it made the group that had AI help less creative.

Hauser describes the divergent result as a 'classic social dilemma' – a situation where people benefit individually, but the group suffers. "

It's not really a throwing motion

Do Quokkas Really Throw Their Babies?

" The thing that is interesting here is that the part where they fall out of the pouch may be done on purpose by the mothers. Research shows that this may be an actual anti-predator characteristic of quokkas. They normally have very strong control over the muscles in their pouches, so their response to the threat of predators may be to release those muscles. The babies are left there to attract the attention of the predator, and the parents can safely escape. "

Probably

**Has Life on Earth Survived
More Than Five Mass Extinctions?**

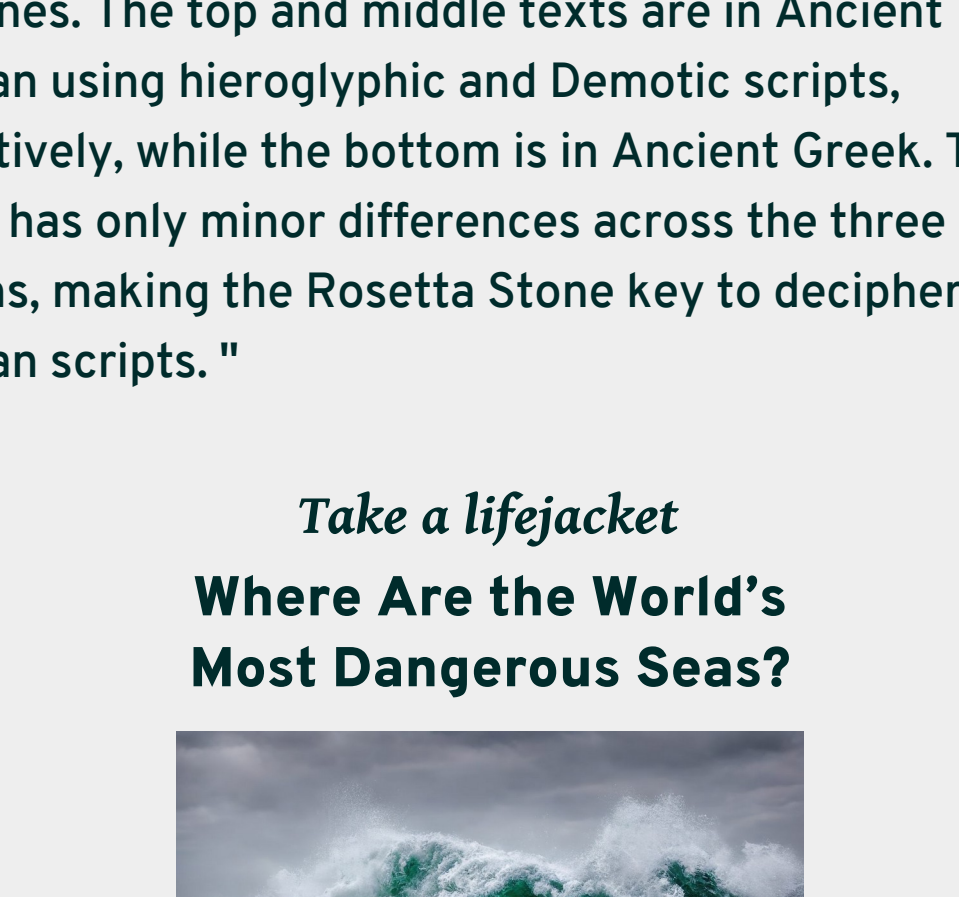

" Extinction is a fact of life. Of all the species that have ever evolved on our planet, the overwhelming majority no longer exist. Even as life continues to evolve and respond to Earth's ever-changing conditions, every species we perceive will eventually perish. Some will leave descendent species as part of life's billions-year-old story, others will be the last of their lineage, but all will eventually meet the same fate. "

July 15, 1799

Rosetta Stone

Found in the Egyptian village of Rosetta

Wiki Rabbit Hole

" The Rosetta Stone is a stele of granodiorite inscribed with three versions of a decree issued in 196 BC during the Ptolemaic dynasty of Egypt, on behalf of King Ptolemy V Epiphanes. The top and middle texts are in Ancient Egyptian using hieroglyphic and Demotic scripts, respectively, while the bottom is in Ancient Greek. The decree has only minor differences across the three versions, making the Rosetta Stone key to deciphering the Egyptian scripts. "

Take a lifejacket

**Where Are the World's
Most Dangerous Seas?**

" Within minutes, gale-force winds were whipping through the air. They created massive waves, causing the bow of the ship to pitch upward and then slam back down. A series of loud booms accompanied each pounding, the sounds almost deafening. The entire ship was shuddering and vibrating. "

Beautiful weirdness

**Famous Surrealist Paintings
From The Masters of Surrealism**

Ceci n'est pas une pipe.

" Surreal Art is much broader term than the cultural and artistic movement that began in 1920s in artist circles in Paris. Developed from Dada and Avant-garde, with the roots in theory of psychoanalysis, Surrealism soon spread from literature and visual arts to music, photography and film to culture practices, as well as to philosophy, politic work and social theories worldwide. The main topic explored by surrealist artists and writers was the dialogue between dreams and reality, trying to depict affluence of human mind with the emphasis on its subconscious images and surreal landscapes. "

They can be wonderfully terrifying

Fun Facts About Owls

" The tiniest owl in the world is the Elf Owl, which is 5 - 6 inches tall and weighs about 1 ½ ounces. The largest North American owl, in appearance, is the Great Gray Owl, which is up to 32 inches tall. "

***“While wandering down the path of wonder,
I briefly escape the world of separation
and enter the world of unity.”***

Hermann Hesse

it's your life
you understand
